IPL group | Commissioning & Technical Services

IPL group provides technical services and combined product-service solutions that optimise network productivity, efficiency and control. Our range of advanced technologies and supporting technical services offers industry, water and wastewater sectors precise product specification, skilled installation of process instrumentation, validated commissioning and maintenance programs.

In Ireland, IPL group is a long established and trusted source for technical advice, quality products and engineering solutions. Our team and experienced personnel receive continuous product and service training, which means they can guarantee that essential equipment delivers consistent product quality, plant safety and environmental compliance. Working with municipal and commercial customers in all infrastructural sectors, we consistently protect asset investment and improve management control.

To ensure your continued success and sustainable infrastructure design, we make it our job to understand your operational processes, critical issues and future development plans in order to identify and implement integrated solutions of real value.

IPL group's technical services work hard to keep the best process, measurement and control equipment working for you.

MULTI-SECTOR SUPPORT

IPL group provides specialised expertise and multi-sector technical services and support. As a leading supplier of instrumentation, automation and control equipment, we have built our knowledge base and experience through decades of supporting water, wastewater and industrial water sectors. IPL group also supports pharmaceutical, chemical, food, dairy and beverage industries, as well as EPA IPPC waste license-holders and other customers in environmentally sensitive sectors, such as landfill, mining and quarrying. Our range of equipment, technical services and maintenance support contracts focus on asset management and process efficiency, and we deliver real value in terms of dependable product quality, plant safety and environmental protection.

SCHEDULE OF SERVICES

IPL group engineers and service technicians support clients from the planning phase through to commissioning and maintenance on all measurement and control equipment, whether supplied by IPL group or client-provided. We are always ready to integrate new and existing instrumentation and control systems. Our turn-key service and support solutions come with our extensive technical product background and industry experience. Services include:

- | | |
|--|--|
| Application engineering and advice | Installation and commissioning |
| Calibration and verification services | Service and maintenance contracts |
| Emergency call-out service | Training and product support |

INSTRUMENTATION / APPLICATIONS / BESPOKE SOLUTIONS

IPL group has over 40 years' experience and a reputation for quality innovative products, trusted technical advice and bespoke solutions. With our network of international partners, we advise on the latest advancements and developments in the industry and can design local solutions to global best practice. Technical services, instrumentation and applications include:

- | | |
|--|---------------------------------------|
| Liquid analytics (chlorine, turbidity, suspended solids, dissolved oxygen...) | |
| Flow meters and samplers | Dosing pumps |
| Level, pressure and temperature control | Data logging and analysis |
| Gas detection systems | Hydraulic control valves |
| Radio /GSM/GPRS telemetry and alarms | SCADA, HMI and control systems |

COMMITMENT TO QUALITY

IPL group has built a sustainable business through professional expertise, product integrity and customer service. Our highly skilled technical service personnel and trusted level of competency stem from IPL group policy of continuous product training and industry knowledge development. The company maintains and operates an integrated Quality, Safety and Environmental management system that is internationally accredited to ISO 9001, OHSAS 18001 and ISO 14001. We welcome the opportunity to discuss your specific project requirements at any time. Our dedicated team of experienced personnel will ensure that you receive an informed and courteous service.

IPL group

quality products | excellent service | responsible company

IPL group designs, manufactures and provides an extensive range of infrastructural products and services. High-quality innovative products, creative engineered solutions, excellent customer service and socially responsible business practices define this leading Irish company since its establishment in 1975.

As a company we are committed to the principles of sustainable development throughout all IPL group operations and conduct our business with honesty and integrity at all times. Through the implementation of our core policies, IPL group personnel, customers and partners have the assurance that we meet and exceed legal compliance and deliver best practice. The company maintains and operates an integrated Quality, Safety and Environmental management system that is internationally accredited to ISO 9001, OHSAS 18001 and ISO 14001.

Since 1975, IPL group has been at the forefront of quality infrastructure design, working with our customers on their specific requirements and providing integrated solutions. Whether we are creating intelligent post foundation systems, solving water network control issues or providing industrial process instrumentation, calibration and technical services, we bring 40 years' experience that you can rely on.

Today, IPL group uniquely combines global expertise and local understanding. We aim to build on our past strengths and further develop our professional scope and technical ability; to continually exceed customer expectations and always supply the very best infrastructure solutions, services and quality products. At all times we welcome the opportunity to discuss your project requirements and our dedicated team of experienced personnel look forward to working with you.
